

## **KITCHEN + BEDROOM.**

---

Product Guide 2024

## HOUSING 002

The devil is in the details, so, to assist with the design process and ensure there is no room for error, we have visualised and categorised each kitchen and bedroom component by range to plan every detail with ease.

## IN-FRAME 010

A premium range of beautifully crafted kitchen furniture, effortlessly combining traditional looks with a subtle contemporary touch. Exceptionally high quality and distinctive design means our In-Frame kitchens will stand the test of time.

## VERSE HANDLELESS 018

The uninterrupted, smooth lines of Verse Handleless give this range a premium and contemporary look. Verse Handleless utilises an integrated aluminium rail system that creates a space between cabinets to allow opening and closing of doors and drawers.

## SHAKER 036

If your style is traditionally English, contemporary country, or naturally rustic, have a look at the kitchens in our Shaker collection. Caple's shaker kitchens are characterised by elegant details, rich woods, and subtle colours.

## J-HANDLE 072

Experience a kitchen that exudes modern elegance and sophistication. The cabinets, with their integrated 'J' style handles, not only add a touch of contemporary charm but also ensure uncluttered lines that flow throughout your space.

## SLAB 082

Transform your space with our Slab kitchen collection - a modern embodiment of simplicity and style. The sleek, plain slab doors seamlessly integrate into a contemporary setting, offering an understated charm.

## BEDROOMS 107

Embrace the moment to wind down, get comfortable, and sink into a peaceful slumber. With our bedroom range, your private retreat is thoroughly designed to maintain a clutter-free environment, ensuring the ideal ambience for your relaxation.

## HANDLES 122

Will it be contemporary linear stainless steel, or a set of traditional pewter knobs? It's amazing how these small [and essential] items can completely transform the finish of your kitchen.

# Kitchen + Bedroom Guide.

Your dream kitchen is about to become a reality. But the devil is in the details. So, to assist with the design process and ensure there is no room for error, we have visualised and categorised each kitchen component by range to plan every detail with ease.

Use this guide along with our Kitchen + Bedroom Furniture Collection to assist you with each decision and take the guesswork out of the process. Within each range, you will find a price group, the components available and whether special sizes are available to create a truly bespoke kitchen.

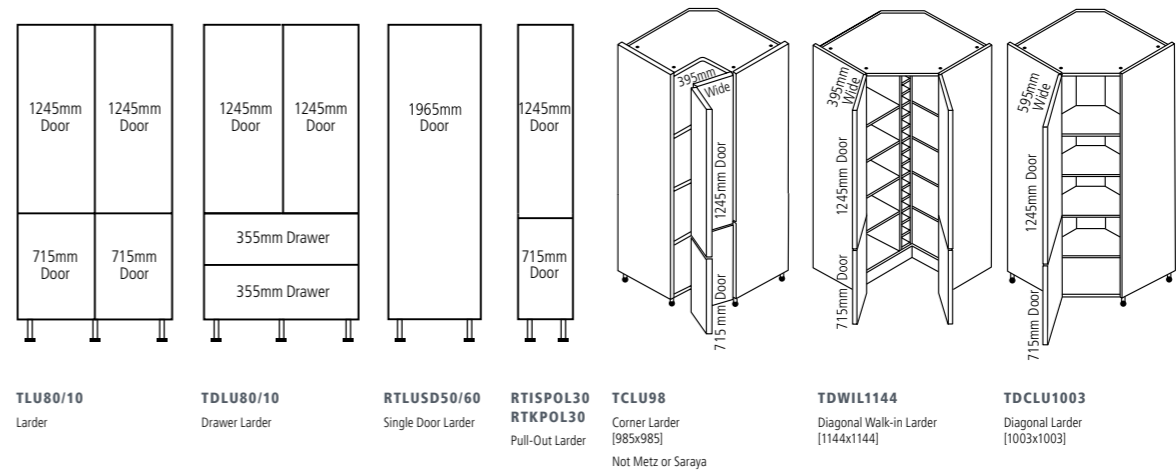

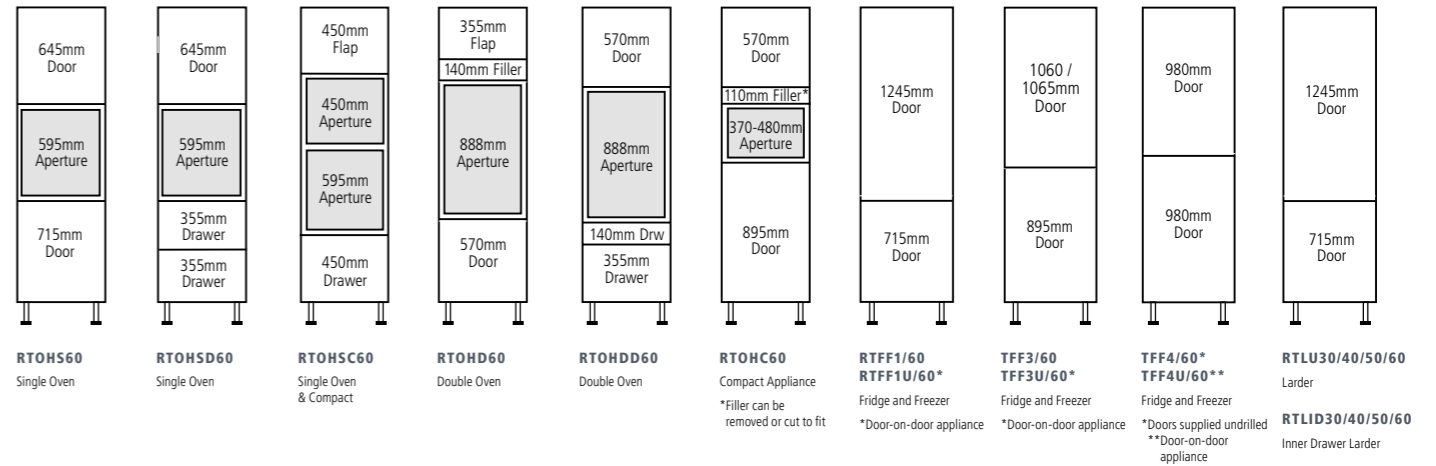

Relax and unwind, knowing your bedroom design is in safe hands. Browse the collection of components and create your stress-free sanctuary. Say goodbye to clutter and add accessories for an organised, accessible wardrobe.

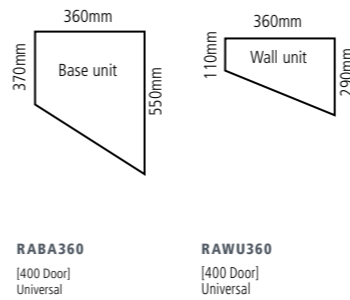

## Kitchen Housing Units. STANDARD LAY-ON.

### 1970MM TALL HOUSINGS

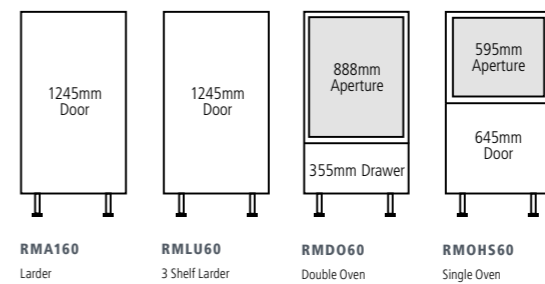

Note: the guide height for Wall unit installation is 2120mm

### 5PLAYED UNITS

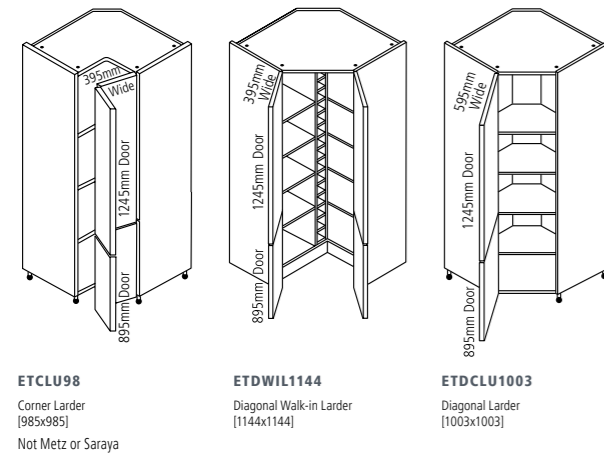

### 1250MM MIDI HOUSINGS

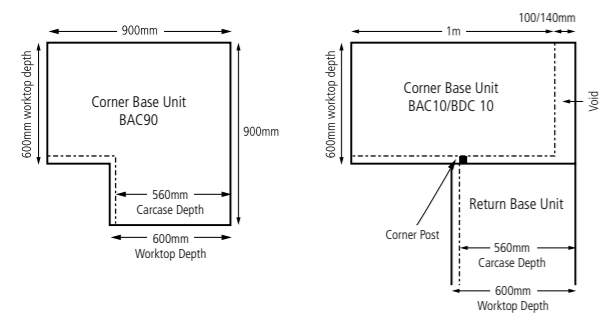

# Kitchen Housing Units. STANDARD LAY-ON.

## 2150MM TALL HOUSINGS

Note: the guide height for wall unit installation is 2300mm

## HINTS ON CORNER PLANNING

We recommend that only one working drawer should be used, with the other unit adopting either a dummy drawer front (without handle fitted) or a full height door.

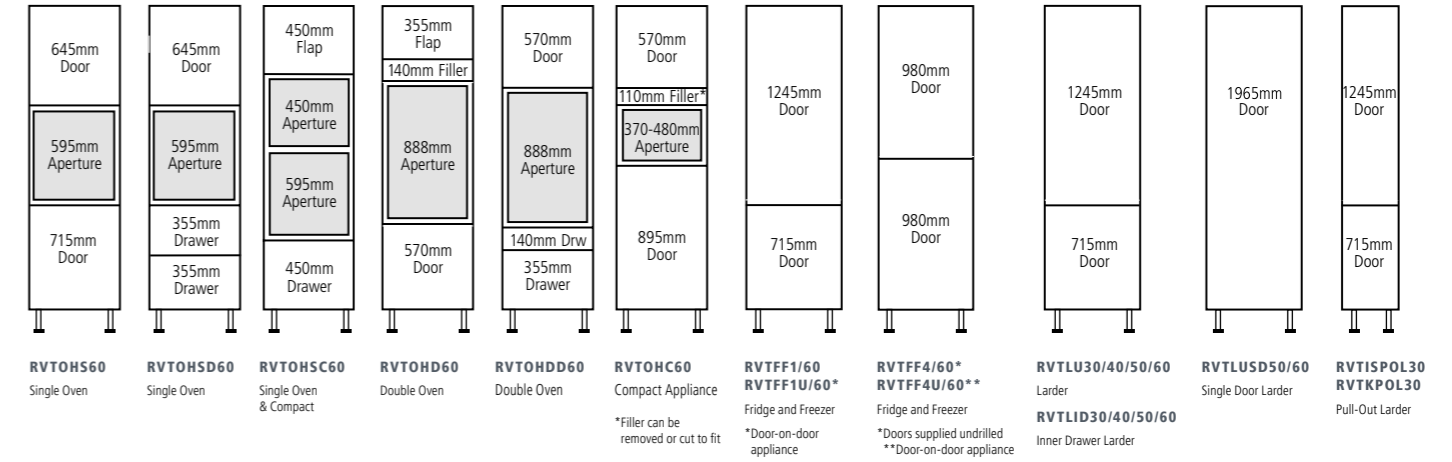

**PLEASE NOTE:** Corner post widths vary from range to range, this should be considered in both design and installation.

- > All Caple kitchens are supplied with Blum Antaro full extension soft close drawer boxes and Hettich Sensys integrated soft close hinges [except integrated fridge/freezer housings] as standard
- > All horizontal wall units and tall housings which incorporate a lift-up door have Blum Aventos HK-S mechanisms
- > All standard corner bases are supplied with a blanking panel and corner post
- > All glazed units are supplied with glass shelves
- > All dimensions listed are in mm
- > Floor standing unit heights exclude plinth

# Kitchen Housing Units. VERSE HANDLELESS.

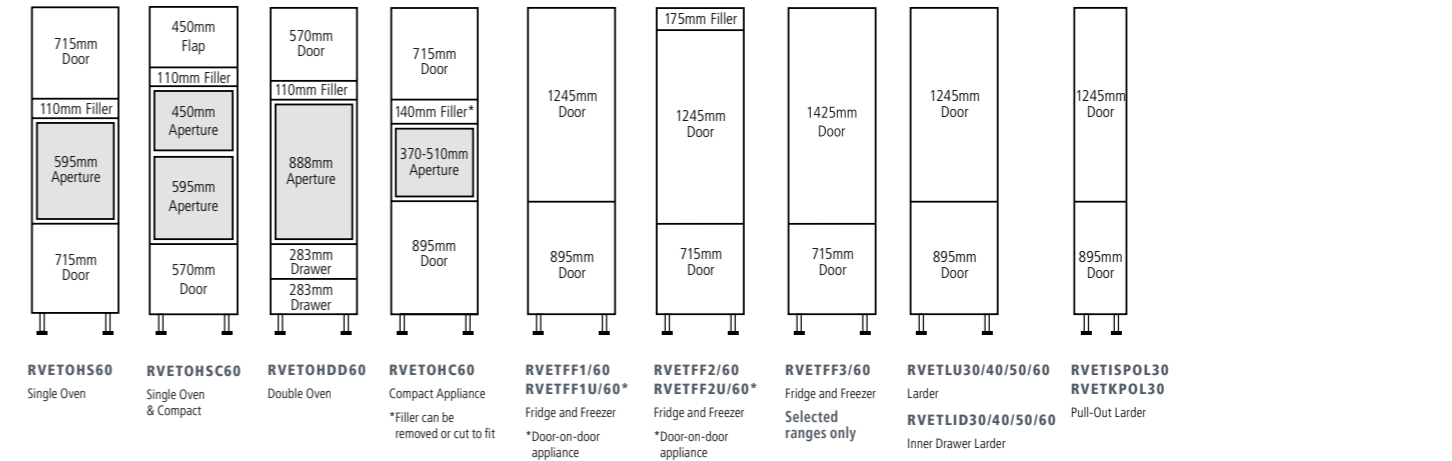

## 1970MM TALL HOUSINGS

Note: the guide height for Wall unit installation is 2120mm

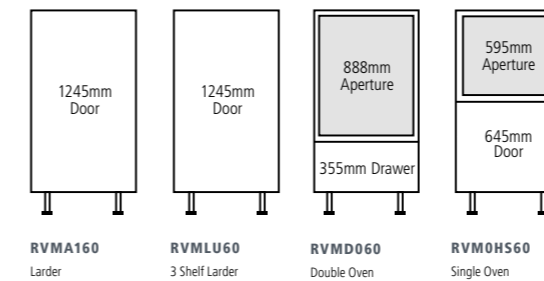

## 2150MM TALL HOUSINGS

Note: the guide height for Wall unit installation is 2300mm

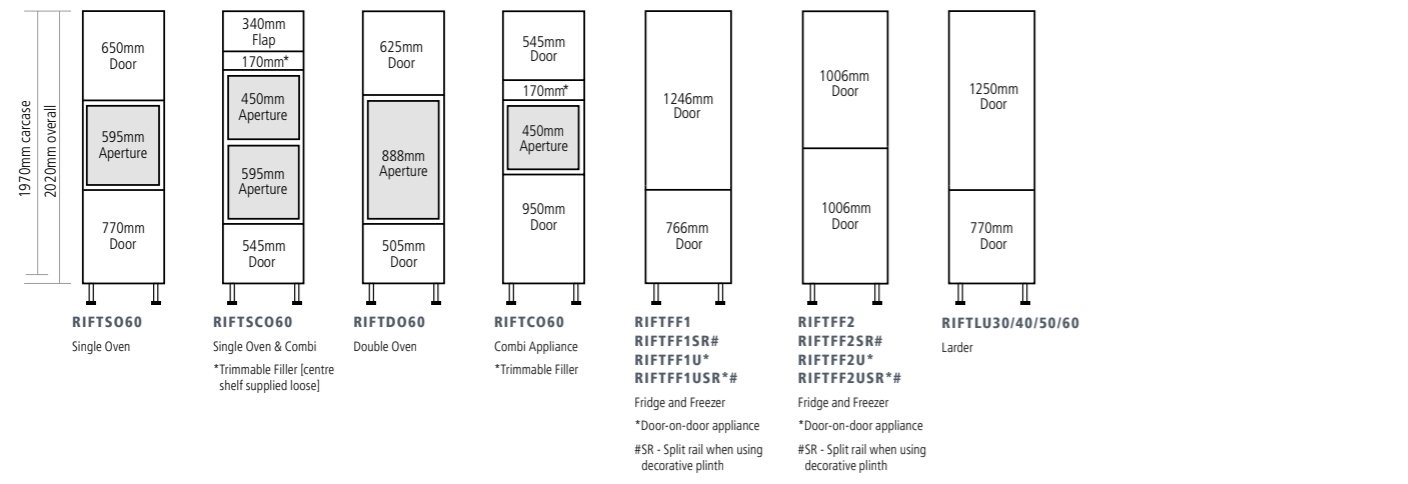

## 1250MM MIDI HOUSINGS

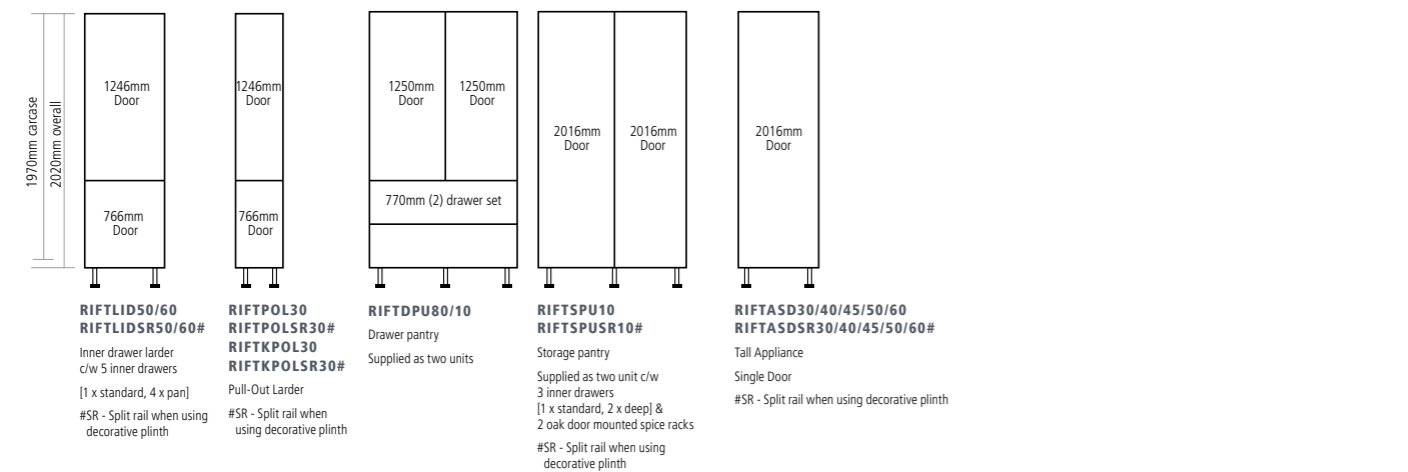

# In-Frame Housing Units. HARPTREE + SUTTON.

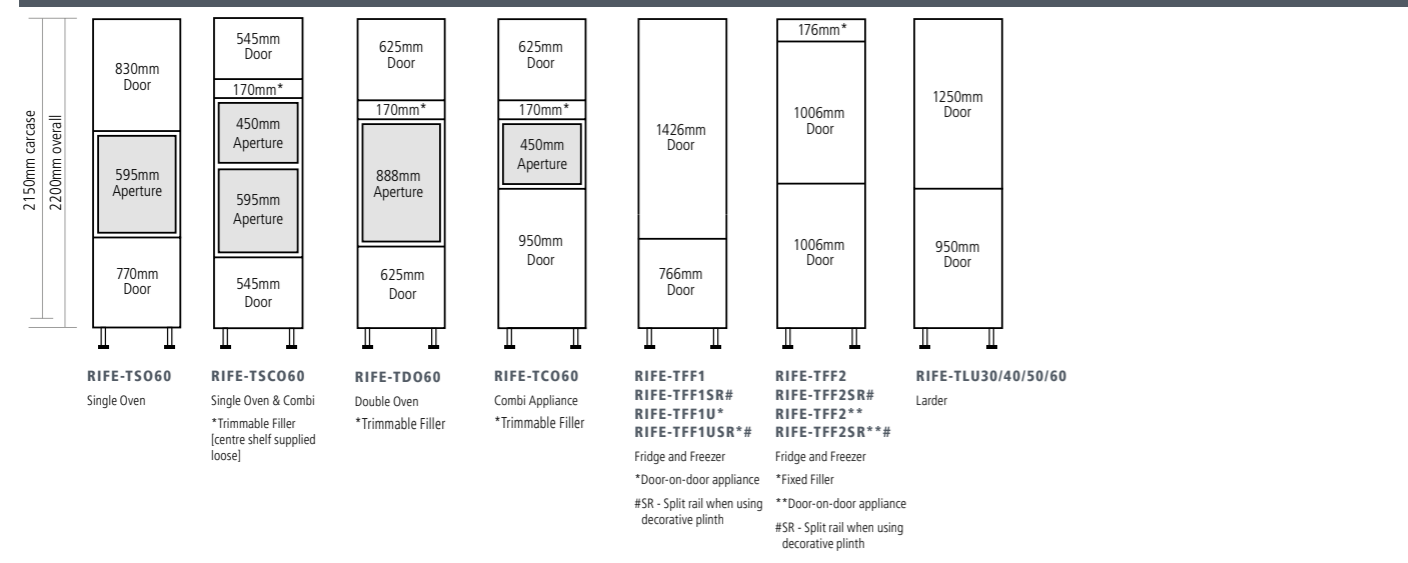

## TALL HOUSINGS

## TALL HOUSINGS

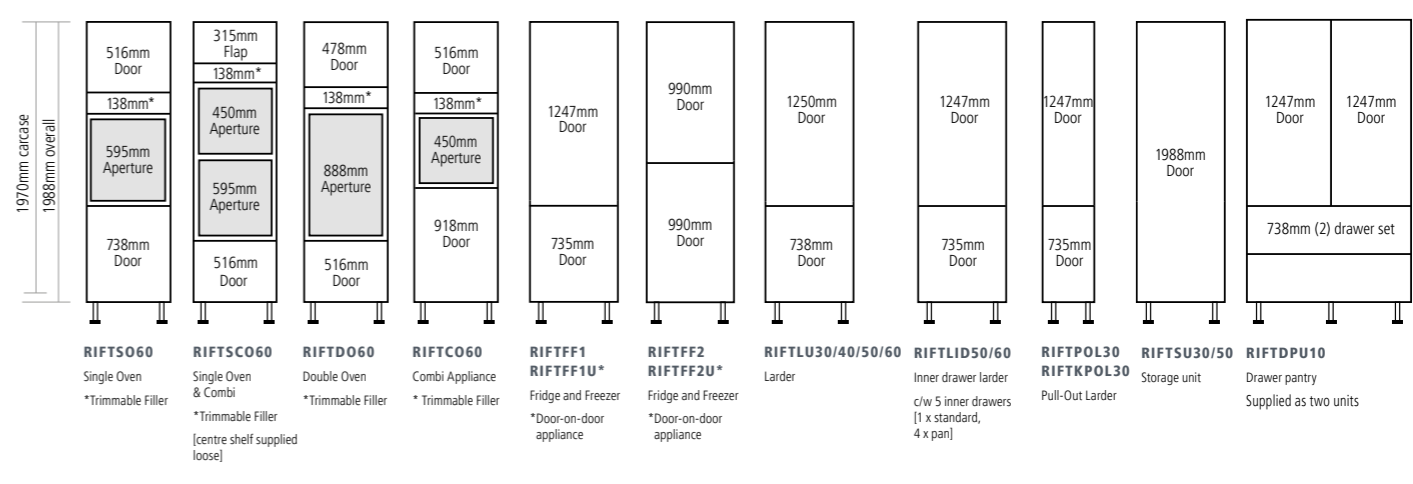

## EXTRA TALL HOUSINGS

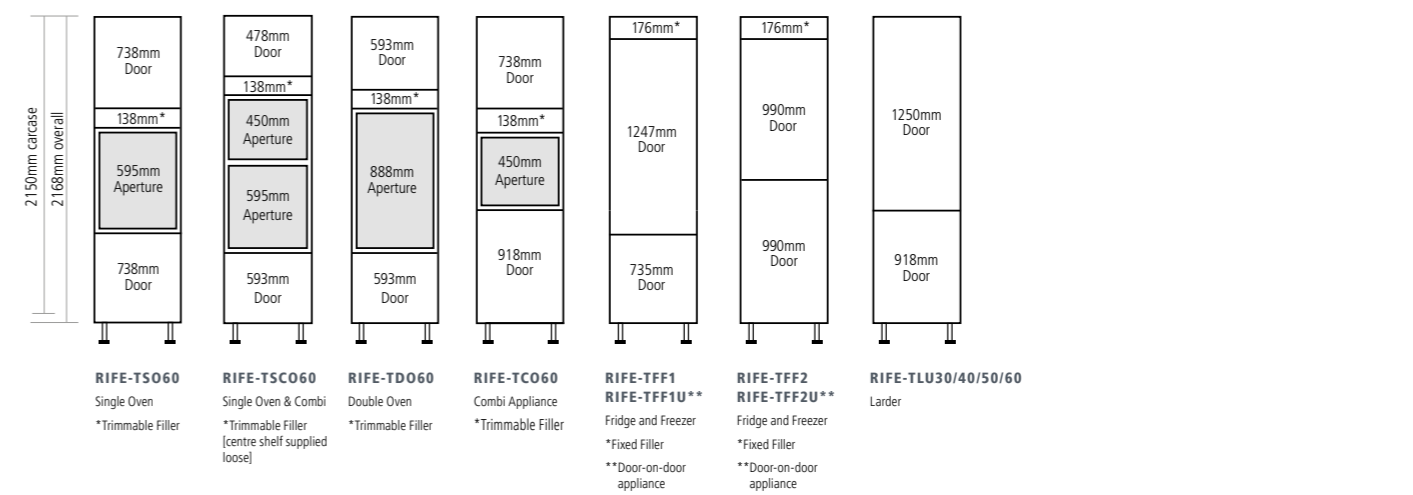

- > All Caple in-frame kitchens are supplied with oak dove-tailed drawer boxes on Blum Movento full extension soft close runners and Blum fully integrated soft close hinges [except integrated fridge/freezer housings] as standard

AT A GLANCE

# VERSE HANDLELESS

Introducing Verse, the handleless collection from Caple.

The uninterrupted, smooth lines give this range a premium and contemporary look with no need for handles. Verse utilises an integrated aluminium rail system that creates a space between cabinets to allow opening and closing of doors and drawers.

A choice of on-trend textured, matt, gloss and painted door finishes with a variety of complementary rail colours, Verse gives you complete freedom with design.

## 12 RAIL COLOURS

## BESPOKE PAINTED COLOUR

Our bespoke painted colour service means we can match your chosen Verse furniture to any paint manufacturer's colour swatch. Let your imagination run wild and choose something which will inspire you.

Bespoke Shimmering Colours  
 - Gold Dust [GD] and Rose Gold [RG]

- When installing an integrated under counter appliance, please check the appliance height carefully to establish if it will fit below the top profile [812mm high or less]. The plinth height can be raised slightly to accommodate taller appliances.
- If using free-standing appliances, end panels must be fitted either side of the appliance and the rail profile finishes against the panel, and end caps fitted if required.
- A top rail profile cannot be used with a built-under single oven in the Verse range. The rails must stop on each side of the appliance and end caps fitted.
- When using an 'L' shaped corner wall unit, the Verse wall rail will need to be mitred on site.
- When planning ensure a 30mm gap is left between, or to the side of all Midi & Tall housings for the vertical profile to be fitted.
- When ordering Midi and Tall units, ensure that you specify either LHH [left hand hinge], RHH [right hand hinge] or Double [units with vertical profiles on both sides] to ensure that the unit ordered is supplied with the correct gables.
- When using either a sink or hob, the distance behind the top rail profile to the back of the carcass is 534mm, therefore units may need to be pulled forward from the wall to accommodate your products. See our Verse Technical Guide for further details on this range. Alternatively, you can call our Furniture team for product information.

NGPMIDCAP**		NGPILCON		Vertical DOUBLE fixing [each]	
Mid profile end caps [Pr]		In-line connector		- 4 required per rail	

- When installing an integrated under counter appliance, please check the appliance height carefully to establish if it will fit below the top profile [812mm high or less]. The plinth height can be raised slightly to accommodate taller appliances.
- If using free-standing appliances, end panels must be fitted either side of the appliance and the rail profile finishes against the panel, and end caps fitted if required.
- A top rail profile cannot be used with a built-under single oven in the Verse range. The rails must stop on each side of the appliance and end caps fitted.
- When using a 'L' shaped corner wall unit, the Verse wall rail will need to be mitred on site.
- When planning ensure a 30mm gap is left between, or to the side of all Midi & Tall housings for the vertical profile to be fitted.
- When ordering Midi and Tall units, ensure that you specify either LHH [left hand hinge], RHH [right hand hinge] or Double [units with vertical profiles on both sides] to ensure that the unit ordered is supplied with the correct gables.
- When using either a sink or hob, the distance behind the top rail profile to the back of the carcass is 534mm, therefore units may need to be pulled forward from the wall to accommodate your products. See our Verse Technical Guide for further details on this range. Alternatively, you can call our Furniture team for product information.

Bespoke Shimmering Colours - Gold Dust [GD] and Rose Gold [RG]

- When installing an integrated under counter appliance, please check the appliance height carefully to establish if it will fit below the top profile (812mm high or less). The plinth height can be raised slightly to accommodate taller appliances.
- If using free-standing appliances, end panels must be fitted either side of the appliance and the rail profile finishes against the panel, and end caps fitted if required.
- A top rail profile cannot be used with a built-under single oven in the Verse range. The rails must stop on each side of the appliance and end caps fitted.
- When using an 'L' shaped corner wall unit, the Verse wall rail will need to be mitred on site.
- When planning ensure a 30mm gap is left between, or to the side of all Midi & Tall housings for the vertical profile to be fitted.
- When ordering Midi and Tall units, ensure that you specify either LHH (left hand hinge), RHH (right hand hinge) or Double [units with vertical profiles on both sides] to ensure that the unit ordered is supplied with the correct gables.
- When using either a sink or hob, the distance behind the top rail profile to the back of the carcass is 534mm, therefore units may need to be pulled forward from the wall to accommodate your products. See our Verse Technical Guide for further details on this range. Alternatively, you can call our Furniture team for product information.

Bespoke Shimmering Colours  
- Gold Dust [GD] and Rose Gold [RG]

- When installing an integrated under counter appliance, please check the appliance height carefully to establish if it will fit below the top profile [812mm high or less]. The plinth height can be raised slightly to accommodate taller appliances.
- If using free-standing appliances, end panels must be fitted either side of the appliance and the rail profile finishes against the panel, and end caps fitted if required.
- A top rail profile cannot be used with a built-under single oven in the Verse range. The rails must stop on each side of the appliance and end caps fitted.
- When using a 'L' shaped corner wall unit, the Verse wall rail will need to be mitred on site.
- When planning ensure a 30mm gap is left between, or to the side of all Midi & Tall housings for the vertical profile to be fitted.
- When ordering Midi and Tall units, ensure that you specify either LHH [left hand hinge

NGPMIDCAP**		NGPILCON		Vertical DOUBLE fixing [each]	
Mid profile end caps [Pr]		In-line connector		- 4 required per rail	

Bespoke Shimmering Colours  
- Gold Dust [GD] and Rose Gold [RG]

- When installing an integrated under counter appliance, please check the appliance height carefully to establish if it will fit below the top profile [812mm high or less]. The plinth height can be raised slightly to accommodate taller appliances.
  - If using free-standing appliances, end panels must be fitted either side of the appliance and the rail profile finishes against the panel, and end caps fitted if required.
  - A top rail profile cannot be used with a built-under single oven in the Verse range. The rails must stop on each side of the appliance and end caps fitted.
  - When using an 'L' shaped corner wall unit, the Verse wall rail will need to be mitred on site.
  - When planning ensure a 30mm gap is left between, or to the side of all Midi & Tall housings for the vertical profile to be fitted.
  - When ordering Midi and Tall units, ensure that you specify either LHH [left hand hinge], RHH [right hand hinge] or Double [units with vertical profiles on both sides] to ensure that the unit ordered is supplied with the correct gables.
  - When using either a sink or hob, the distance behind the top rail profile to the back of the carcass is 534mm, therefore units may need to be pulled forward from the wall to accommodate your products.
- See our Verse Technical Guide for further details on this range. Alternatively, you can call our Furniture team for product information.

## Shaker.

If your style is traditionally English, contemporary country, or naturally rustic, have a look at the kitchens in our Shaker collection.

Caple's shaker kitchens are characterised by elegant details, rich woods, and subtle colours, put together with our high standards of build and attention to detail.

## Slab

Transform your space with our Slab kitchen collection - a modern embodiment of simplicity and style. The sleek, plain slab doors seamlessly integrate into a contemporary setting, offering an understated charm.

Choose between the high-gloss finish for a sophisticated sheen or the painted matt kitchen for a laid-back feel.

## Handles.

Will it be contemporary linear stainless steel, or a set of traditional pewter knobs? It's amazing how these small [and essential] items can completely transform the finish of your kitchen. Choose the handle that best fits the character of your kitchen, from professional-industrial to Victorian charm.

It's not simply about opening the doors - it's about completing the look.

# Bar Handles

Our collection of bar handles come in a variety of styles, sizes and colours, from traditional through to on-trend metallics to provide the perfect finishing touch and refinement to any kitchen.
